

Dear Families of Newly Registered Student(s):

By law, Independent School District 196 must give notice regarding directory and yearbook information releases. A copy of the public notice is attached for you to read.

You have the right to deny the release of some or all directory information by completing the attached form.

Following are possible consequences of denying release of directory information:

- ❖ The school district will be limited in its publishing of your child's name on honor rolls, athletic or play programs, yearbooks, releasing of listings to class reunion organizers, etc.
- ❖ Your child's name will be deleted from directory lists released to outside persons or vendors who ask for directory lists. Commonly, these are vendors such as photographers, armed forces recruiters, persons running for political office, institutions of higher learning, etc.

If you would like to deny all or part of the directory information, please complete the attached form and turn it in to the secretary at the school building where you are registering.

If you have any questions, please call (651) 423-7644 for clarification.

Sincerely,

Kimberly Reis  
Student Information Supervisor
